

EUROTEC CALCULATION SERVICE

Pitched roof solar fastening system

Request form for preparing a proposal for a photovoltaic system on a trapezoidal pitched roof. The proposal includes a quantity calculation as well as the feasibility check for your project. You will automatically receive a preliminary measurement of the mounting elements when you place your order. Additional verifications, such as inspecting the roof structure, are not included in the scope of delivery. We are happy to submit a proposal to you for this.

Email: _____

INFORMATION ON THE CONSTRUCTION PROJECT:

Postcode: _____

Length on the eaves side: _____ m

Snow load zone: _____
(according to DIN 1055-5:2005)

Roof pitch α [degrees]: _____ °

Wind load zone: _____
(according to DIN 1055-4:2005)

Verge overhang: _____ m

Ground elevation above sea level: _____ m
(above sea level)

Eave overhang: _____ m

Module type: _____
(precise manufacturer specifications)

Rafters cross-section: _____ cm
(W x H)

Rafter spacing: _____ cm

Roof with on-roof insulation:
Yes No

Vertical

Horizontal

Weight of module: _____ kg

Module dimensions: _____ mm
(length x width)
(If the type is unknown)

Alignment of modules: →

Module height: _____ mm

Number of modules _____

Ridge height H: _____ m

Gable width: _____ m

ADDITIONAL REQUIRED INFORMATION:

• Dimensioned sketches or status plan of the pitched roof specifying the orientation of the roof and all openings, roof structures, chimneys, lightning protection systems, adjacent buildings, etc.
