

Eurotec calculation service

Solar mounting for trapezoidal sheet metal roof

Email: technik@eurotec.team

Request form for preparing a proposal for a photovoltaic system on a trapezoidal sheet metal roof. The proposal includes a quantity calculation as well as the feasibility check for your project. You will automatically receive a preliminary measurement of the mounting elements when you place your order. Additional verifications, such as inspecting the roof structure, are not included in the scope of delivery. We are happy to submit a proposal to you for this.

Dealer: _____ Executing company: _____
Contact person: _____ Contact person: _____
Email: _____ Place: _____
Tel: _____
Construction project: _____ Email: _____

*We prefer to send you the planning guide in PDF format by email. Please complete the fields marked with an *. They are mandatory.*

Information on the construction project:

Postal code * _____

Snow load zone _____
(according to DIN 1055-5:2005)

Wind load zone _____
(according to DIN 1055-4:2005)

Ground elevation above sea level _____ m
(above sea level)

Building height H * _____ m

Module type * _____
(precise manufacturer specifications)

If the type is unknown Weight of module * _____ kg

Module dimensions * _____ mm
(length x width)

Module height * _____ mm

Alignment of modules* vertical ☐ horizontal ☐

Trapezoid sheet metal type + manufacturer* _____

If the type is unknown Length L1 * _____ mm

Length L2 * _____ mm

Length L3 * _____ mm

Height h * _____ mm

Sheet thickness t * _____ mm

Installation type of the trapezoidal sheet metal → negative ☐ positive ☐
(positive or negative position) *

Additional required information*:

- Dimensioned sketches or status plan of the flat roof while specifying the orientation of the roof and all openings, roof structures, chimneys, lightning protection systems, adjacent buildings, etc.
- Information on unloading points at the construction site and/or place of delivery
