

Overview of Eurotec aluminium profiles

Properties/advantages:

- Form-stable, always straight, load-bearing, torsion-free
- Resistant to weather, UV exposure, insects and rot
- The special shape of the profiles reduces the risk of fastening screws shearing off as a result of swelling and shrinking movements of the deck boards
- Support constructive timber protection

1

EVO aluminium system profile

- Suitable for Profi-Line and Eco-Line adjustable pedestals
- For visible and hidden fastening of deck boards, e.g. Twin System Clip
- Can be extended using EVO/EVO Slim aluminium system-profile connectors

2

EVO Slim aluminium system profile

- Suitable for Profi-Line and Eco-Line adjustable pedestals
- For visible and hidden fastening of deck boards, e.g. Twin System Clip
- Can be extended using EVO Slim aluminium system-profile connectors
- Especially suited to low assembly heights
