

Bit and accessories

Our colour-guide system will help you find the right bit quickly

TX-Bit

1/4" x 25 mm

Art. no.	Size	Bit	PU
945851	TX10		10
945852	TX15		10
945853	TX20		10
945854	TX25		10
945855	TX30		10
945856	TX40		10

Quick-change bit holder

Can be used with all 1/4" x 25 mm bits

Art. no.	Description	PU*
945850	The Bit holder from Eurotec is an ideal aid for all craftsmen. Once the bit is inserted into the bit holder, it can no longer fall out of its own accord.	1

*Bit supplied separately

Advantage

i A secure hold in every position!

TX-Long-Bit

1/4" x 50 mm

Description

The Long-Bit is suitable for installing screws in hard-to-access places in all fastening areas, e.g. deck boards, cladding, etc. It is suitable for common electric/cordless screwdrivers and can therefore be used either directly or with an adapter.

Length: 50 mm

Art. no.	Size	Bit	PU
954666	TX10		20
945975	TX15		20
945976	TX20		20
945977	TX25		20
945978	TX30		20
945979	TX40		20
954658	TX50		10

The Long-Bit is well-suited to use in relatively inaccessible screw positions. Fastening can be achieved easily without the chuck damaging the boards.

Hint

6 long bit packs (20 bits in one size) just plug them together.... and you get a practical storage box.

Stainless steel TX-Bit

1/4" x 50 mm

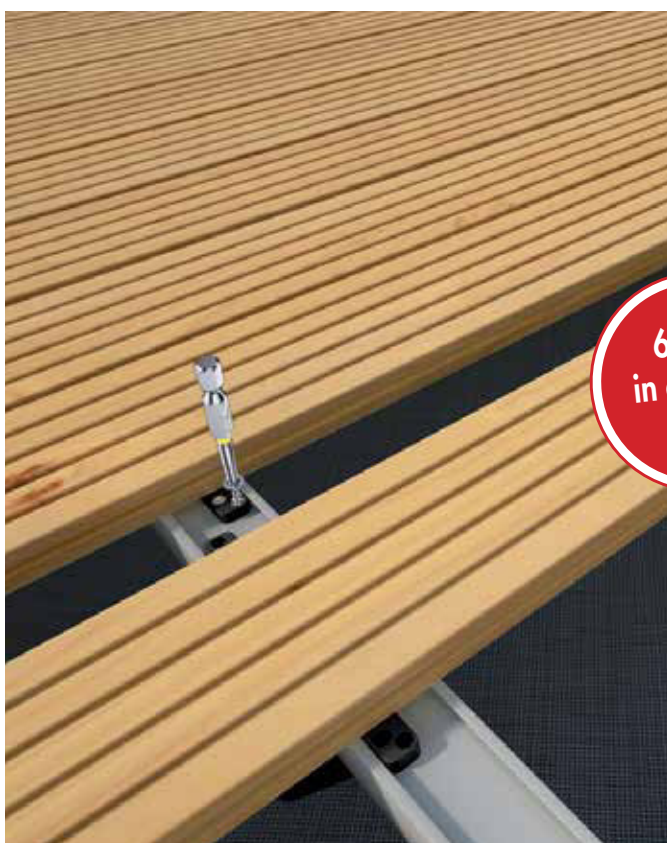

Description

Eurotec's stainless-steel long bits prevent the abrasion of other steels as stainless-steel screws are screwed in. This provides effective protection against the risk of flash rust.

Art. no.	Size	Bit	PU
500055	TX10		20
500056	TX15		20
500057	TX20		20
500058	TX25		20
500059	TX30		20

Advantages

- Protection against the risk of flash rust
- Avoidance of follow-up costs due to flash rust

6 sizes
in a blister
pack.

Magnet TX-Long-Bit

1/4" x 50 mm

Description

The innovative new magnet bits from Eurotec provide an extremely strong hold and therefore prevent screws from falling. Even long screws remain securely in place, and even in a horizontal position.

Art. no.	Size	Bit	PU
499993	TX10		5
499994	TX15		5
499995	TX20		5
499996	TX25		5
499997	TX30		5
499998	TX40		5

• 5 Magnet TX Long Bits in a practical blister pack with standard European perforation

Advantages

- Extremely strong hold in every position
- No falling screws

Magnet Bit Set

NEW
to our product range

Art. no.	Size	PU
499992	TX10 / TX15 / TX20 / TX25 / TX30 / TX40	6

Bit box

specially made for wood construction

Art. no.	Description (content)
945857	31 TX bits and 1 quick-change bit holder in a practical box with a belt clip 5 x TX10 ○ 5 x TX15 ● 5 x TX20 ● 5 x TX25 ● 2 x TX30 ● 6 x TX40 ● 1 x quick-change bit holder

Available to order individually or as a 10-pack incl. Sales display.

Universal bit box

for universal applications

Art. no.	Description (content)	PU
945858	48 bits and 1 quick-change bit holder in a practical box ⊕ PH 1-1-2-2-3-3 ⊕ PZ 1-1-2-2-3-3 ○ Hex 4-4-5-5-6-6 □ Square 1-1-2-2-3-3 ⊗ TX 10-10-15-15-20-20-25-25-27-27-30-30 ⊗ SI-TX 10-10-15-15-20-20-25-25-27-27-30-30 1 x quick-change bit holder	1

Angled screwing attachment

for hard-to-reach locations

Art. no.	Description	PU
499999	<ul style="list-style-type: none"> • Head angled at 90° • Compatible with all standard bits and machines <ul style="list-style-type: none"> - Magnetic 1/4" hexagonal bit holder - 1/4" hexagonal machine inputs • Handle can be rotated and locked in 30° steps • Suitable for clockwise and anti-clockwise rotation • Maximum torque: 62 Nm • Maximum speed of rotation: 2000 U/min • Comes supplied with 1 bit each for TX20, TX25 and TX30 	1

Advantage

Ideal solution for hard-to-reach locations.
